****

Welcome to the March 2008 edition of the Radio HF Internet Newsletter. I'm getting this edition out to you just prior to my departure for the 21st annual Winter SWL Festival in Kulpsville, Pennsylvania, the largest gathering of shortwave listeners and DXers in North America. Many of our Newsletter subscribers are in attendance at the event each year. I look forward to meeting up with you again. Please drop by the Radio HF/CIDX exhibit booth and say hello.

I'm excited to be adding a new "Zone" to the Newsletter, starting with this month's edition. Look for the "Where in the World" Zone each month, preceding the Radio Zone. And just what is this all about? Well, each month, we'll travel to some little known part of our planet and introduce you to it. I'm kicking off the Zone this month with a visit to Jan Mayen Island, a Norwegian possession in the North Atlantic Ocean. There are many interesting and unique corners of our planet. This feature each month will help us all learn more about them. Let me know how you enjoy it.

It's March. That means it's time to talk once again about the annual fundraiser, the Baillie Birdathon, organized by Bird Studies Canada. This will be my 6th consecutive year participating in this event and, once again this year, I will be hoping for your support. In the next few days, you will each be receiving a separate e-mail from me explaining how the Baillie Birdathon works and how your donations can

help birds and bird studies in Canada. Of the more than 1000 subscribers to this free, monthly newsletter, 28 of you graciously supported me in this important cause last year, together with 65 other contributors, to help me to raise just over $2150. Again, I ask you to think about what this free Newsletter each month means to you. If you value it and you were willing to pay an annual fee to receive it, I ask you to pledge that amount to this cause that means so much to me. I would like to try to bring up the number of Radio HF Internet Newsletter subscribers supporting this event to at least 50 this year, if possible. Watch for the e-mail in your inbox in the next few days and please consider making your pledge of support. Any amount will be greatly appreciated. If you are going to be attending the Winter SWL Festival next weekend, or at upcoming hamfest/fleamarkets in Quebec and Eastern Ontario, I'll be more than happy to collect your donation there. Thanks in advance for your continued support.

In this month's Newsletter, the Monthly Special Zone features sites dealing with St. Patrick's Day, Spring, Good Friday & Easter Sunday, and Daylight Saving Time.

THE MONTHLY SPECIAL ZONE

ST. PATRICK'S DAY HISTORY CHANNEL

http://www.history.com/minisites/stpatricksday

St. Patrick is believed to have driven the snakes from Ireland. Once a pagan himself, St. Patrick is one of Christianity's most widely known figures.
The modern secular holiday is based on the original Christian saint's feast day also thought to be the date of the saint's death. In 1737, Irish immigrants to the United States began observing the holiday publicly in Boston and held the first St. Patrick's Day Parade in New York City in 1766. Today, the tradition continues with people from all walks and heritages by wearing green, eating Irish food, and attending parades. St. Patrick's Day is bursting with folklore; from the shamrock to the leprechaun and to pinching those that are not wearing green.

THE RITE OF SPRING

http://www.factmonster.com/spot/riteofspring1.html

March 20, 2008, is a date that most of us recognize as symbolic of changing seasons. As we welcome spring, people south of the equator are actually gearing up for the cooler temperatures of autumn. On this page, learn more about the Vernal Equinox.

THE GOOD FRIDAY-EASTER SUNDAY QUESTION

http://www.ucgstp.org/lit/gn/gn027/easterf.html

How do the biblical three days and three nights after Jesus Christ's crucifixion fit between Friday afternoon and Sunday morning? Or do they?

ABOUT DAYLIGHT SAVING TIME

http://www.timeanddate.com/time/aboutdst.html

Benjamin Franklin first suggested Daylight Saving Time in 1784, but it was not until World War I, in 1916, when it was adopted by several counties in Europe that initially rejected the idea. Learn more about it, and why we do it.

++

THE MARCH ZONE

Each month we feature the monthly page from Wikipedia, the free, on-line encyclopedia.
The page features an overview of the month, plus background and general information on the month itself. The actual monthly calendar, clickable day by day, gives a list of special events in history, famous birthdays, anniversaries, etc. for each day.
Here is the link for the month of March.

http://en.wikipedia.org/wiki/March

Also, here are some special days in March.

RADIO H.F. PUBLICITY ZONE

HUSTLER ANTENNA & ACCESSORIES FROM NEW-TRONICS

From their beginning in Cleveland, Ohio, Hustler Antennas have been produced in the U.S.A. for over 40 years. Since 1985 Hustler Antennas have been manufactured and marketed by New-Tronics Antenna Corporation in Mineral Wells, Texas, on the western edge of the Dallas - Fort Worth metroplex. Many of the antenna models designed in Cleveland, especially the amateur radio models, are still in production today. Occupying over 55,000 square feet of factory and warehouse space, New-Tronics performs much of the fabrication, and all of the assembly of Hustler Antennas in its plant. The combination of a high percentage of in house manufacturing, and low overhead allows New-Tronics to minimize cost and offer what we believe is the best antenna value in the US and international communication markets.

If you are serious about HF mobile operation the Hustler HF Mobile System is the obvious choice.
The "G" series antennas have long been Hustler's standby for base station antennas.
Hustler has been producing HF vertical antennas of unusual electrical performance and mechanical integrity since 1959. Many of those original verticals are still in service after over 30 years of reliable operation.
CB, cellular and land base and land mobile antennas are also available.

Radio HF is now pleased to offer the complete line of New-Tronic's Hustler products. To see all of the Hustler products, please visit their webpage at:

http://www.new-tronics.com/

Contact Radio HF for pricing and availability of any Hustler products.

++

WHERE IN THE WORLD ZONE

JAN MAYEN ISLAND

http://www.jan-mayen.no/

Jan Mayen, a Norwegian possession, is a volcanic island located in the North Atlantic Ocean, 950 km west of Norway, 600 km north of Iceland. Current crew is a total of 18, running the Loran-C navigation station, the meteorological station and maintaining the infrastructure - buildings, roads, airstrip, power station and so on. The view of the island is dominated by the active volcano, Beerenberg (2277m), which had its last eruption in 1985. On this site you can learn about the people and activities on the island, including seeing the island in photos and by webcam.

++

THE RADIO ZONE

SWL'ING

http://swling.com/

VIA Thomas Witherspoon, Sylva, North Carolina via Glenn Hauser's DX Listening Digest

I have created a simple website for newcomers to shortwave listening. I'm specifically aiming it to encourage families to educate their children to do a little SWLing. The site is perhaps my small way of encouraging families and individuals to listen to news sources other than Fox News. I tried to keep the language and techno talk to a minimum.

DXER.CA

http://www.dxer.ca/

VIA Sheldon Harvey, Greenfield Park, Quebec

Welcome to the website that has been putting the fun back into long distance radio listening since 1995, Canada's original world band

radio website. You'll find open forums, equipment reviews and evaluations, sound bytes, and more.

THE MEDIA NETWORK WEBLOG

http://blogs.rnw.nl/medianetwork/

VIA Sheldon Harvey, Greenfield Park, Quebec

The Media Network Weblog is the place to look for the latest media news, updated 7 days a week. An RSS feed of the headlines in the Weblog is available.

BACK TO BUSH HOUSE THE BUSHLOG ARCHIVE

http://www.richardsonmedia.co.uk/Bushlog.html

VIA Ian Richardson, London, U.K.

Fans of the BBC will enjoy this website which features a collection of assorted BBC World Service publicity material and personal photographs and documents from c1950-2000.

OLD RADIO BROADCASTING EQUIPMENT AND MEMORIES

http://www.roger.beckwith.btinternet.co.uk/bh/menu.htm

VIA Ian Richardson, London, U.K.

This page features old BBC radio equipment and memories from the people who used it.

BAY AREA RADIO MUSEUM

http://www.sfradiomuseum.com/

VIA Mickey Delmage, Sherwood Park, Alberta

The Bay Area Radio Museum is dedicated to preserving and honoring the history of radio broadcasting in the San Francisco Bay area.

RADIO ASTRONOMY

http://www.astrosurf.com/luxorion/menu-radioastro.htm

VIA Fred Zalupski,

This page of information and numerous links on the subject of radio astronomy comes from Mr. Thierry Lombry of France. Be sure to check out the audio and sound files.

MEDIA MATTERS FOR AMERICA

http://mediamatters.org

VIA Sheldon Harvey, Greenfield Park, Quebec

Media Matters for America is a Web-based, not-for-profit, progressive research and information center dedicated to comprehensively monitoring, analyzing, and correcting conservative misinformation in the U.S. media.

W8JI.COM

http://www.w8ji.com/

VIA Sheldon Harvey, Greenfield Park, Quebec

All contents of this site are the property of W8JI, Charles Rauch Jr., of Barnesville, Georgia, but links from other sites are welcomed. The site contains all sorts of interesting and helpful information for the avid radio hobbyist.

RADIO H.F. PUBLICITY ZONE

RADIOWAVZ INTRODUCES THE END FED HALF WAVE ANTENNA.

Radiowavz of Lake St. Louis, Missouri, introduces their new end-fed half-wave antennas, available for 40, 30, 20, 17, 15, 12, 10, and 6 meters. Pricing will range between $43 and $55. They also have a multi-band version covering 40-20-10. It will retail for about $75

Half Wave End Fed Antenna Specifications
Power Handling 200 watts; Connector SO-239; Radiator - 26 ga. 19 strand Copper clad steel poly coated

This antenna is a half wave dipole with one important differencethe feed line is at the end of the antenna. The antenna is suspended at its ends by
the two included end insulators one of which is integral to the matchbox. This antenna is one of the best choices for portable operation, great for QRP!!!
It has many of the advantages of a dipole with few limitations. Fantastic stealth antenna; durable construction made to withstand the elements.

This new product, plus all other Radiowavz products are available from Radio HF. Visit the Radiowavz webpage to see their complete line of products.

http://www.radiowavz.com

++

THE GENERAL ZONE

PROJECT ON DEFENSE ALTERNATIVES

http://www.comw.org/pda/

VIA Sheldon Harvey, Greenfield Park, Quebec

Since its inception in 1991, the Project on Defense Alternatives has sought to adapt security policy to the challenges and opportunities of the post-Cold War era. Toward this end it promotes consideration of the broadest range of defense options. Central to its mission is the development of "transitional security policy," which would serve to create conditions favorable to the advent of regional and global cooperative security regimes.

SINO DEFENCE TODAY

http://www.sinodefence.com/

VIA Sheldon Harvey, Greenfield Park, Quebec

Along with its rapid growth in audience and traffic over the past few years, the website has developed a reputation as the most comprehensive and trusted online source of information on Chinese military.
Chinese Defence Today is run by volunteers. The website is based in the United Kingdom.
The website has no link to any government, military authority or political organisation, nor does it have access to any classified information. It is independent, non-government and research-based.
The website's operation is based on collaborative relationships with a network of experts in military research, news media, and defence industry in China and around the world.

THE KILLING FIELDS MUSEUM

http://www.killingfieldsmuseum.com/

VIA Sheldon Harvey, Greenfield Park, Quebec

The mission of the museum is to educate Americans, Cambodian Americans and other nationalities about the factual history of the Khmer Rouge atrocities and to help prevent future crimes against humanity and to honor and remember the victims and survivors of the Khmer Rouge holocaust.

VICTORIA CLASS SUBMARINES

http://www.jproc.ca/rrp/victoria.html

VIA Jerry Proc, Toronto, Ontario

I have posted a document on Victoria class submarines with particular focus on the electronics fit. All the best parts I could find on the web have been drawn into a single document but I was not able to identify everything I wanted to. Hopefully as more eyes look at the document, a few more pieces of the puzzle may fall into place, in particular, the mast identifications. My thanks are extended to Gorka Mezo and Jim Morrice of the Canadian Navy List who provided assistance in getting the document this far.

EUROPEAN WEATHER SHIPS

http://home.wanadoo.nl/janfernhout/weerschip_cumulus.htm

VIA Jerry Proc, Toronto, Ontario

I've just been made aware of this web page about several European weather ships which were part of the old Ocean Weather Station system. The web page is written in both Dutch and English. Some of the photos of heavy seas are incredible.

MOUNT WASHINGTON OBSERVATORY

http://www.mountwashington.org

VIA Ed Muro, Long Island, New York

The Mount Washington Observatory is a private, non-profit scientific and educational institution organized under the laws of the state of New Hampshire. Its mission is to advance understanding of the natural systems that create the Earth's weather and climate, by maintaining its mountaintop weather station, conducting research and educational

programs and interpreting the heritage of the Mount Washington region.

THE NINE (8) PLANETS

http://www.nineplanets.org/

VIA Sheldon Harvey, Greenfield Park, Quebec

This website is an overview of the history, mythology, and current scientific knowledge of the planets, moons and other objects in our solar system. Each page has text and NASA's images, some have sounds and movies, most provide references to additional related information.

INVENTOR SPOT

http://inventorspot.com

VIA Elmer Standish, Courtenay, British Columbia

InventorSpot.com is a fun and informative website focused on Inventions, Innovations and Interesting Ideas from around the world.

++

RADIO H.F. PUBLICITY ZONE

WHAT'S NEW IN BOOKS & PUBLICATIONS FROM THE AMERICAN RADIO RELAY

LEAGUE, THE RADIO SOCIETY OF GREAT BRITAIN, and other publishers?

RADIO HF GIFT CERTIFICATES

Gift certificates are a great idea if you're not sure what that special person is looking for. Radio HF is offering gift certificates available in any denomination. Please contact Radio HF for details.

RADIO H.F. NATURE BOOKS DIVISION

The Radio H.F. Nature Division offers hundreds of specialty books in the fields of birding, animals, plants, etc. A complete listing of the titles is available on the new Radio H.F. web page at http://www.radiohf.ca. Simply click on the Canada goose!

++

THE RESOURCES ZONE

The following is a listing of clubs, groups, radio broadcasts and other resources that may be of interest to you.

THE CANADIAN INTERNATIONAL DX CLUB (CIDX)

CIDX is Canada's national radio monitoring club, serving radio hobbyists since 1962. Our monthly newsletter, MESSENGER, now published electronically, covers all aspects of the radio monitoring hobby.

SPECIAL OFFER: To all Radio HF Internet Newsletter subscribers, a FREE sample of our monthly CIDX electronic newsletter, MESSENGER, (in .PDF format) is available to you for the asking. Just send along an e-mail to cidxclub@..., with a valid return e-mail address and you'll receive your copy by return e-mail. Our March 2008 edition, 74 pages, is now available. Membership, at the low cost of $10 per year, is open to radio hobbyists worldwide.

CIDX is working on its new webpage. The update is far from complete, but you are welcome to visit the new page. Watch for new information and developments on the page shortly.

http://www.cidx.ca

PRIME TIME SHORTWAVE

Prime Time Shortwave is a listing of English shortwave broadcast that are updated on a weekly basis by webmasters Daniel Sampson and Ernest Riley. The schedules are constantly updated from various print and internet sources as well as from monitoring by the webmaster and other shortwave listeners and DXers. The shortwave schedules are available by time, country and frequency format. Also, they are available in ASCII, DBase, Excel and PalmOS formats (Dan Lyddy creates the PalmOS file). You will also find links to some of the best radio related websites and to the international broadcasters and time conversion charts (some provided by Craig Braun). Please visit the Prime Time Shortwave webpage at

http://www.primetimeshortwave.com/

THE INTERNATIONAL RADIO REPORT

The International Radio Report, beginning its 20th year on CKUT-FM, 90.3 FM in Montreal, is available via the Internet live streaming, and on the airwaves of CKUT, Sunday mornings at 10:30 AM Eastern (1530 UTC). The show's co-hosts, Janice and Steve Karlock, present a weekly half-hour of news, information and developments in radio broadcasting. Visit the CKUT web page for full CKUT programming:

http://www.ckut.ca

You may listen to archived editions of the programme through the CKUT web site. Send your comments or questions to the International Radio Report, by e-mail, to radioreport@...

RADIO CANADA INTERNATIONAL

Radio Canada International is Canada's shortwave broadcaster. The broadcast schedules are posted on the Schedules and Frequencies page of the RCI webpage at the following address:

http://www.rcinet.ca/rci/en/horaires.shtml

You will also find the schedules for three 24-hour per day satellite channels on the HotBird satellite (Europe/North Africa/Middle East),

the RCI Plus channel on Sirius Satellite Radio and the live RCI Viva service available on the website.

Stay in touch with Canada via Radio Canada International.

That is all for this month. Radio H.F. is a mail order, telephone and on line business, with great products, great prices, and personalized service, serving the radio community since 1995. Be sure to visit the Radio H.F. web site at
